DETAILED ACTION

1. The previous Office Action requiring an election to the Restriction by Original Presentation has been withdrawn. The Applicant is not required to respond to this restriction and the response dated October 24, 2003 will not be considered non-responsive. The Restriction requirement was not withdrawn due to the fact that it was improper, rather that it was not intended to be an election requirement.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. § 121:
 - I. Claims 20-40, drawn to an apparatus receiving requests via satellite and transmitting packets via high speed data cable, classified in class 709, subclass 219.
 - II. Claims 41-86, drawn to a driver for use in a computing device having a TCP/IP stack, classified in class 709, subclass 236.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as lacking a receiving unit connectable to a satellite dish. See MPEP § 806.05(d).

Art Unit: 2143

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

5. Since applicant has received an action on the merits for the originally presented invention, this invention has been *constructive elected by original presentation for prosecution on the merits*. **Accordingly, claims 41-86 are withdrawn from consideration as being directed to a non-elected invention.** See 37 C.F.R 35 § 1.142(b) and M.P.E.P. § 821.03.

Response to Amendment

Applicant's arguments with respect to claims 20-25, 27-35, and 37-39 have been considered but are moot in view of the cancellation of the above-mentioned claims.

Conclusion

6. **In light that there are no claims to examine on the merits of this case, THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2143

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
